### 3. Exceptions

This Warranty shall apply only to the original purchaser of the Product. No rights with respect to this Warranty may be assigned or transferred by You to any third party without Our written consent (which may be withheld by Us for any reason or no reason at Our sole and absolute discretion) and any attempted such assignment or transfer shall be null and void. Unless We agree otherwise in writing, in no event is any affirmation, representation or warranty relating to the Product applicable to anyone other than You as the original owner of the Product, and no other person is entitled to rely thereon.

You must follow all installation and maintenance instructions set forth within the Fitness Matta™ Product manual and all accompanying written materials/warning labels at all times. We are not responsible for any Products which are improperly maintained and/or installed (including any installation and/or maintenance by any person other than by Us or Our authorized representatives, unless installed/maintained by a qualified or technically competent person approved by Us in writing prior to any such installation/maintenance or attempted installation/maintenance). This Warranty shall apply only to Products located at the original location of installation by Us or Our authorized representatives and only so long as the Product has not been moved, altered, repaired or attempted to be moved, altered and/or repaired by any party other than Us or Our authorized representative. Specifically, You are solely responsible for the maintenance obligations as determined by the manufacturer (at Your sole cost and expense). IF THESE REQUIREMENTS ARE NOT FOLLOWED, THE WARRANTY SHALL BE VOID AND YOU SHALL HAVE NO RECOURSE TO ANY REMEDIES PROVIDED HEREIN, TO THE FULLEST EXTENT PERMITTED UNDER APPLICABLE LAW.

This warranty shall not apply in any event: where the Product has been exposed to corrosive chemicals or has been subject to frequent or prolonged direct exposure to sulphur-based oils or fluids containing emulsifiers (including but not limited to some cutting oils and some lubricating oils); where the Product has been subject to severely abrasive situations or has been subject to other extreme conditions (including but not limited to extreme load bearing, extreme and rapid temperature variation).

You hereby acknowledge that color fading on the bright colors within the Product range (Yellow, Red, Orange, Purple, White, US Blue) can be excessive and rapid and this Warranty shall not apply to these colors in any way.

IN ANY SUCH EVENT(S), THE WARRANTY SHALL BE VOID AND YOU SHALL HAVE NO RECOURSE TO ANY REMEDIES PROVIDED HEREIN, TO THE FULLEST EXTENT PERMITTED UNDER APPLICABLE LAW. Since conditions of use over which We have no control may have a significant effect on the Product, We disclaim any warranty that the Product will conform to any standards and requirements set forth in the United States Occupational Safety and Health Act of 1970 (OSHA), as amended, or the rules and regulations promulgated thereunder.

### 4. General

The provisions of the Uniform Commercial Code for the sale of goods, and the substantive law, of the state in which You reside shall apply to this Warranty. All disputes regarding this Warranty shall be resolved in an appropriate state or federal court of competent jurisdiction in the state in which You reside. We deliver the Product, and You accept the Product, subject to the foregoing warranty disclaimer and limitation of remedies provisions. ## INSTALLATION & MAINTENANCE

**The modular design Fitness Matta™ makes it a highly adaptable flooring solution. Simply installed as well as being easy to keep clean and maintained, Fitness Matta™ tiles can be easily configured to suit a range of applications and floor plans.**

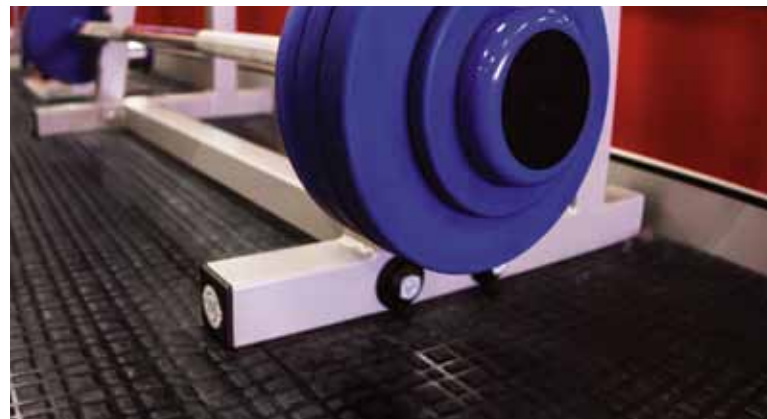

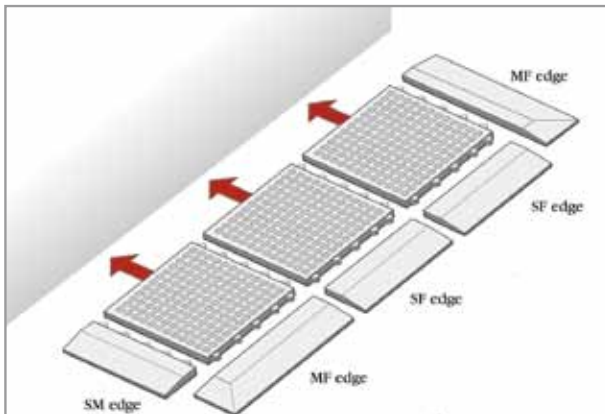

### INSTALLATION TIPS

- It is important to ensure that the overall layout of each installation is kept "in square". Starting at one corner and methodically lay-in tiles until you reach the diagonally opposite corner helps to maintain 'true' 90° angles and straight running joints.
- It is recommended that Fitness Matta™ be installed while the tiles are at a consistent ambient temperature as individual tiles can expand or contract if stored in conditions with marked temperature variations.
- When installing Fitness Matta™, the interlocking of any tight fitting joints can be assisted by tapping tiles into place with a rubber or wooden mallet or using soapy water to provide lubrication.
- Edging for the interior angles of an installation layout can be adapted by cutting the ends off standard edge pieces at 45° to create a mitred joint.

### EASY CLEANING

Fitness Matta™ is an easy-care product which can be cleaned as you would most other flooring surfaces - by sweeping, vacuuming, washing and scrubbing. Depending on the application of the tiles and environment in which they are installed, the use of additional cleaning agents may also be required. Most commonly used household cleaners such as detergent, abrasive creams and glass-cleaner are suitable for use on Fitness Matta. If a bleach is required, use a percarbonate or non-chlorine based product. Surface scuff marks may be removed by spot-cleaning with mineral turpentine, which should be wiped or rinsed off afterwards. For tough scuff marks unaffected by mineral turpentine, Matta Res-Q (Methyl Ethyl Ketone) can be provided upon request. Fitness Matta is a stable PVC product and highly chemical-tolerant, however we recommend testing agents you are uncertain about on a small area first
